

Name: Stephen Hughes

Class: Media

Study program: Erasmus

HTW Switzerland Chur

Why I decided to do an exchange semester abroad was I wanted to go somewhere new and meet some new people. When I was told I could go to Switzerland I jump at the chance because I always wanted to go to Switzerland and this way I could go see what Switzerland had to offer and also see how university were like in a different place. I feel that I learned a lot when I was in Chur. I didn't think I would ever be able to go to university were English was not the first language but I was impress in myself that I got on so well. I think a part of it was from the help that I got from HTW and Hope, if I was ever having problems they were there for me. I had a great experience because I meet so nice people and also learned how to snowboard, which was fun. I would do an exchange again and I have been telling friends at home that they should do it. I loved my time in Chur with the friends I made and the experiences had that I will never forget.
